Your 7-day quick start

- 1 Day 1 -- Read Modules 1 & 2 of the Playbook (about 1.5 hours)**
Don't take action yet. Just understand how clients find and judge you.
- 2 Day 2 -- Rebuild your profile with the Profile Optimizer**
Score before, fix, score after. Aim for 80+.
- 3 Day 3 -- Learn the Vetting Radar**
Score 20 jobs without bidding. Set up 3-5 saved searches.
- 4 Day 4 -- Build your master proposal**
Pick your niche template from the Swipe File. Fill in the worksheet at the end.

5

Day 5 -- Send 3 proposals (Radar 7+ only)

Use the 3-Sentence Hook. Record one Loom for your best job.

6

Day 6 -- Prepare for calls

Read Module 4 and the call script. Build your 3 options.

7

Day 7 -- Review and repeat

Update your tracker. From now on: 3-5 quality proposals a day in your bidding windows.

THE 3 THINGS THAT MATTER MOST

1. Your first sentence must be about the client's specific problem.
2. Only bid on jobs that score 7+ on the Radar.
3. Never lower your price without lowering the scope.

USING THE FILES

- * All files are PDFs you can read on any device or print. Worksheets and checklists can be printed and filled in by hand.
- * Templates are easiest to copy from a computer. Always personalise the yellow parts.
- * You get free updates when Upwork changes its rules, fees or features.
